

Surveyor / Survey Technician Christchurch

Land Development / Surveying / Aerial Surveying / Engineering / Planning / Urban Design

creating legacies with land

At Fox and Associates we have an opportunity for a Surveyor or Survey Technician (preferably 2+ years' experience) to join our team.

We are an established and progressive consultancy based in Christchurch helping our clients and communities to create legacies with their land.

We start by employing and partnering with likeminded people whose purpose is to provide creative solutions with a focus on people, quality and innovation.

The services we deliver our client include surveying, engineering, planning and urban design consultancy services throughout the South Island (or on occasion further if required).

By joining our team, you will be:

- Involved with a wide variety of meaningful work projects
- Work experiences not typically found in other companies or available to all
- Receive on-going training and development opportunities
- Competitive salary package

The successful candidate will either need to be a Surveyor who has completed their university degree, or a Technician Surveyor with a recognised qualification.

- Can you assist by adding to our strong relationships network, a culture of teamwork and client focus, creating your own networks and enhancing our safe work environment?
- Will you work ethically, morally providing quality work and give back to your community?
- Are you a learner, who applies and shares your knowledge/skills, thereby adding to our company's ability to 'punch above our weight'?
- Do you consider yourself ingenious, innovative and adaptable and want to be part of team creating legacies with land directly through your efforts?
- We have a passion and enjoyment for our work, take pride in what we do and promise to take our customers along with us. Could you commit to this?

If you want to be part of this opportunity apply to Carl Fox (carl@foxsurvey.co.nz), forwarding a Covering Letter, CV and any supporting information you feel might be relevant.
